

DEBUT

FOR PLANT THEATRE

Plant Theatre offers a simple solution for gardeners looking to easily display their favourite pot plants with maximum effect. Inspired by the original 17th and 18th century auricula theatres, Plant Theatre is a smaller-scale, easy to move version. Available in either metal or wood, and in a range of colours they are perfect for both indoor and outdoor pot plants. Within minutes, any gardener or non-gardener can use a Plant Theatre to complement and enhance the décor of their home, garden, terrace or courtyard – however large or small. For more information contact Peter Magee on **07771 645534**, email **info@plant-theatre.com** or visit **www.plant-theatre.com**
